Report on Garage from Adam

- ⊙ "As I understand it, the parking garage project is under review. Unfortunately, capital funds are so limited that the project is not yet underway. However, I asked and was assured that the structure is not in danger of some kind of catastrophic collapse. That being said, I know from viewing the garage that it is not in great shape aesthetically and based on the review that has already been done, there is interest in taking care of the situation. I wish that I could give you more specific information about exactly when that will be, but I will keep you updated if more information becomes available or if we are able to make any progress." - Adam Kuegler

Good luck on Finals!
